GEOLOGICAL MAP of the NORTHERN TERRITORY

Produced by the Northern Territory Geological Survey, Department of Primary Industry, Fisheries and Mines, Darwin, Australia.

Geological regions and total magnetic intensity.

The map is based on the Northern Territory Geological Survey 1:250,000 geology and 1:500,000 geology for the Northern Territory. It is underpinned by several geologic cross-sections that were derived from high-resolution airborne magnetic surveys.

Paleo-drainages are from information supplied by Natural Resources Australia. Standard Parallels 13°30' and 23°30' South.

Central Meridian 133°30' East.
